<p>10. Estates Committee minutes</p> <p><u>Review of Terms of Reference</u></p> <p>10.1. The Terms of Office were revised to clarify that the Committee Chair's term of office should align with their membership term of office.</p> <p>Resolved to</p> <p>10.2. Accept the amended Terms of Reference.</p>	
<p>10.5. Urgent COVID update</p> <p>10.3. During the week prior to the Governing Body meeting, an increase in the coronavirus transmission rates and a new, more infectious, strain of the virus found in London had led to stronger Government measures.</p> <p>10.4. Up to 14 December 2021, there had been a total of 6 teaching staff that had tested positive and 21 students. In the week commencing 7 December, there were nine individual student positive test results with seemingly, two potentially related cases. In the weeks before then, there had been, on average, 1 or 2 positive cases per week.</p> <p>10.5. There were approximately 3,000 students currently enrolled. Using the figures above, the equivalent rate per 100k for the College was around 333: higher than the national average of 173 and the London average which is currently around 225 per 100k.</p> <p>10.6. Overall, the students, and the staff, had been very good at complying with the COVID-protocols that the College enforced from the outset and these protocols had been generally more-restrictive than Government guidelines and in other institutions.</p>	

<p>10.7. The College had closely followed Public Health England’s and the Department for Education’s guidance.</p> <p>10.8. As the College was still operating a blended timetable including home-study and online study, less than two thirds of students actually physically attend on campus at any one time. This meant that there were generally far fewer students on site, at most 200 but at campuses like Brooks Farm, this was reduced to single figures.</p> <p>Beryl de Souza joined the meeting.</p> <p>10.9. The autumn term was due to end on 18 December 2020 although the Government had asked schools and colleges to use 18 December as an INSET day (an “in-service training day”) so that no school pupils or college students attend on that day. Capel had followed that guidance so all College attendance and face-to-face teaching was due to finish at the end of Thursday 17 December. Staff would be working from home where possible with only essential campus attendance to protect the animals and premises.</p> <p>10.10. This left three days between 14 December and the end of term, or more realistically, two, since students and staff would need a day’s warning if the College were to be closed and alternative teaching arrangements made. There would, most likely, be further positive test cases but, on current evidence, they are much more likely to be infections occurring outside the College, and will not lead to significant further spread within the College.</p> <p>10.11. Students had already had their studies disrupted and coming into College was very important for a great many of them, particularly the 16-19 cohort. Closing any earlier than absolutely necessary would disrupt their lives even further.</p> <p>10.12. On behalf of the Governing Body, the Chair and Principal had weighed up whether the risks associated with travel to and from College, and being at College, were sufficiently great to disrupt the last two days of planned study.</p> <p>10.13. The infection rate among the College population appeared to be relatively high but was not likely to lead to serious consequences over the next three days. At the same time, the College exists to provide life-changing education for a wide-range of people and particularly school-age youngsters, and disrupting this further could have lasting negative consequences to many, particularly the more vulnerable.</p> <p>10.14. The Principal, with the Chair’s support, decided, on balance, not to close the College for the remaining two/three days of term.</p> <p>10.15. Governors were asked to stand ready to be consulted by early January 2021 whether and how the College should re-open for the Spring term, which would begin for FE and HE students on 4 January 2021.</p> <p>10.16. Governors recognised that the optional non-symptomatic Covid testing of students, which was being rolled out by the Government, and the later vaccination programme, may improve confidence in students coming into College.</p> <p>10.17. Governors felt assured that the isolation measures of classes or bubbles, being practised at the College, were effective, and they</p>	
--	--

<p>noted how impressed they had been with how the difficult Covid situation had been handled throughout the year by SLT, staff and students.</p> <p>Resolved to</p> <p>10.18. Confirm that the College should continue with the COVID-protocols and the teaching timetables as currently programmed until close-of-play on the 17 December 2020 and then return to the COVID-related teaching and learning timetables as planned from 4 January 2021, subject to any significant changes of Government advice and/or infection rates over the Christmas and New Year period.</p>	
<p>11. Report of the Principal</p> <p><u>Principal Key Performance Indicators (KPIs)</u></p> <p>11.1. As requested by Governors, a principal set of KPIs was presented as a pyramid to allow Governors to consider KPIs from a high level perspective.</p> <p><u>Academic Performance and Recruitment</u></p> <p>11.2. Academic performance completed at 87.9% for 2019-20, a 3-year increase in overall achievement, which was above national average yet 2.1% below the College internal target and proxy for Outstanding of 90%.</p> <p>11.3. Governors felt that this demonstrated an excellent performance and the Vice Principal and her team were congratulated.</p> <p>11.4. Recruitment was at 24 students below the Education and Skills Funding Agency (ESFA) expectations which was an improvement on the summer projections.</p> <p>11.5. The number of 16-18-year-old students represented 28% of the current total cohort of students. After Christmas, the College was expecting to enrol approximately a further 985 adult students which would lower this to 22%.</p> <p>11.6. Governors requested that future data included the distribution of 16-18s across schools.</p> <p>11.7. Diversity and equality are essential to the College’s wellbeing and this year the number of Black and mixed-ethnicity (BAME) students was higher (20%) although it remained below the overall BAME population of London (42%). BAME students had a 1% higher achievement rate than white British students which is positive and important for further diverse recruitment.</p> <p>11.8. Arguably Capel was leading the way for diversity in the land-based sector, although it continued to strive towards even better representation of non-white students in all curriculum and geographical areas.</p> <p>11.9. Governors noted that the impact of Covid on indoor careers could provide more future interest in land-based education. This could be further promoted in terms of ‘Healthy Careers’ from working outdoors.</p> <p><u>Finance and funding</u></p>	<p>Academic</p> <p>Principal/Marketing</p>

11.10. Marketing strategies were continuing to increase turnover, which had risen over the previous three years, and systems were being put in place to handle the larger amount of leads that were being generated.

Guy Jones-Owen left the meeting.

Estates

11.11. The Royal Parks lease for the Regent's Park campus had been agreed with a modest 5% increase in rent.

11.12. They were no longer pursuing expressions of interest for the land.

11.13. Governor, James Wisdom, reported that a Gunnersbury Park masterplan had been created by Historic England to redevelop the park over the next 30 years. This could be advantageous to Capel in developing a potential zoo or providing a garden public service.

Peter Doble left the meeting.

11.14. The College was granted £580k from the Department of Education (DfE) to undertake repairs to the estate provided that all works were completed by March 2021. Originally the College identified £613k of project work to complete.

11.15. The DfE have now eased the deadline to complete work by September 2021.

The Mottingham / Crystal Palace Park capital development project

11.16. Proposals for the Mottingham / Crystal Palace Park scheme have been drawn up by the architects, Feilden Fowles, for RIBA stage 2 and the College's application to the GLA.

11.17. Governors felt that the architects were a good fit due to their skills with timber buildings.

Health and safety incident

11.18. A significant, and potentially fatal, near miss occurred on 6 October 2020, where a caretaker attempted to mitigate for rain leaking into a building which involved walking unaided onto the roof.

11.19. This prompted a fundamental review of health and safety culture and practices. Following discussion at the Estates Committee on 23 November, a new Health, Safety and Risk Committee will be formed to meet every month to ensure the culture remains active.

Fundraising

11.20. A new fundraiser has been appointed to begin work in January 2021.

11.21. Governors discussed the importance of setting fundraising targets to ensure that the new post provides an efficient return.

UK Innovation Corridor (UKIC) / Institute of Technology (IoT)

11.22. The DfE have confirmed that they cannot currently invest in the London-based Institute of Technology consortium being developed by the UKIC.

11.23. The UKIC still considered some new, higher level provision aimed to addressing elements of the emerging green economy to be valid and

<p>worthwhile although alternative routes of development and funding are needed. UKIC suggest that it is best achieved by having a lead academic institution supported by the UKIC and a higher education institution (HEI) and had asked Capel Manor to be that lead.</p> <p>11.24. Middlesex University and ADA had already expressed an interest in pursuing this route and other colleges are keen to be included.</p> <p>11.25. The Greater London Authority (GLA) have also show support at senior level.</p> <p>11.26. Further concepts will be considered at the Strategy away day in February 2021.</p> <p>11.27. Governors suggested that Imperial College and UCL may be interested which will be further explored.</p>	<p>Principal</p>
<p>12. Ofsted Interim Visit</p> <p>12.1. The College was visited by Ofsted on 3-4 December 2020 for a Covid interim visit to help learners, parents, employers and government understand how providers are meeting the needs of students and apprentices in this period, including learners with high needs and those with special educational needs and disabilities.</p> <p>12.2. A report will be due in early January 2021 but all indications were that it was a successful visit.</p> <p>12.3. The College had responded very well during the visit and the Vice Principal and Staff Governor were particularly thanked for their calm and encouraging approach.</p>	
<p>13. AOB</p> <p>13.1. None.</p>
