## Context

---

1. The Governors of the Corporation are mindful of the need to keep themselves up-to-date with the educational affairs of the Corporation and, generally, with development and initiatives within Further and Higher Education and all aspects relating to the strategic management of the Corporation. They also recognise their responsibilities regarding the business aspects of the Corporation (e.g. risk management, health and safety, strategic planning) and their collective duty as a Corporation laid down by the Instrument and Articles of Government.
2. Governors appreciate there are a variety of mechanisms which can be utilised to facilitate their training as governors and the requirement that such training be capable of audit by inspectors through an appropriate evidence file, of which this policy forms part.
3. Governors also recognise that the role of governor is a voluntary one and, accordingly, time pressure may affect the scope of training that it is practicable for them to undertake. Where relevant, the costs of all governor training sessions, wherever held and however constituted, can be met by the Corporation. Individual training records for Governors will be maintained by the Clerk and an overview presented to Governors annually.
4. Members will review their attendance at training events annually.
5. Members should request and receive additional training if they believe that they may not have fully met the intention of the policy in a specific year.
6. The Governors have agreed that their basic on-going training and relevant continuing professional development as a governor will be satisfied (not exclusively) by the following mechanisms.

## Induction period
